

S1 TV COVERAGE MOTORS TV

Week day prime time between 7pm and 9pm (repeated 4/5 times per week)

- Each programme one hour
- ❖ In each programme, each class (KF1, 2 & 3 and Cadets in MSA rounds, and Mini, Junior, Senior & Heavies in Rotax) will have the Grand Final (Final 2 only) covered in full. If we try and cover heats, pre-finals etc., you end up with almost a highlights only summary of each race, so we concentrate on the main event and put all our efforts into a more in depth coverage of that. There may also be a feature interview, or a feature on some aspect of the sport within certain segments.
- ❖ Each grid rundown will feature EVERY driver, including a photo image of each driver, with EVERY driver having their name included in the commentary for the grid rundown, not just the top 10. The results graphic will feature the top 10. I will attend on the Friday and Saturday of the first rounds to get every driver photo, and will require the cooperation of every driver to get this done.
- Each race will feature certain information graphics on some drivers as the race progresses.
- The driver achieving the fastest lap in each featured race will have a graphic showing their photo image and the fastest lap time.
- Drivers with sponsors can forward the sponsor information to me for inclusion in your grid position graphic and commentary.
- ❖ Motors TV is subscribed in 38 countries in Europe (details overleaf).
